GLOBAL COMPANY FORMATIONS

THE RIGHT JURISDICTION STARTS WITH THE RIGHT QUESTION.

Jurisdiction selection should follow the business objective, not precede it. Before recommending a structure, we consider ownership, management, operations, markets, banking, financing, taxation, regulation and substance.

CYPRUS | UNITED KINGDOM | UNITED ARAB EMIRATES | BVI | MARSHALL ISLANDS | SEYCHELLES | AND MORE

- Structuring and jurisdiction selection
- Name reservation and incorporation
- Constitutional documentation
- Registered office, secretary and officers
- Certification, apostille and legalisation
- Banking support and ongoing administration

We do not sell jurisdictions. We build structures.

GOVERNANCE, DIRECTORS & SECRETARIAL

THAT WORKS.**

Good corporate administration is not simply about meeting filing deadlines. It is about ensuring that decisions are properly taken, documented and implemented; statutory records remain accurate; corporate changes are completed correctly; and the company remains in good standing.

COMPANY SECRETARIAL

- Statutory Registers & Filings;
- Board & Shareholder Resolutions;
- AGM & EGM Support;
- Share Transfers & Capital Changes;
- Changes of Officers & Dividend Declarations;
- Beneficial Ownership Filings.

PROFESSIONAL DIRECTORS

- Appointments following full due diligence;
- Understanding the company's activities;
- Appropriate information for decision-making;
- Independent judgment and proper governance;

Proper governance requires more than a name on a register.

TRUSTS, FIDUCIARY & OWNERSHIP

STRUCTURING OWNERSHIP.

For entrepreneurs, investors and family-owned businesses, the question is often not simply where the company should be incorporated, but how it should ultimately be owned.
