01

WEALTH & SUCCESSION PLANNING

PLAN TODAY.
PROVIDE FOR TOMORROW.

We help individuals and families bring their ownership, family priorities and succession wishes into a coherent plan. Our advice considers how assets are held, how decisions are made and how wealth can pass to the next generation.

- Ownership and family holding structures;
- Lifetime gifts and succession arrangements;
- Coordination of trusts, wills and corporate interests;
- Planning for business transitions and liquidity events;
- Cross-border coordination with tax and legal advisers.

A clear plan for what matters most.

02

TRUSTS & TRUSTEE SERVICES

PURPOSEFUL STRUCTURES. RESPONSIBLE STEWARDSHIP.

Trust arrangements should reflect the family's circumstances and remain workable over time. We advise on the establishment, review and administration of Cyprus trusts, including Cyprus International Trusts where appropriate. Professional trustee services are provided through AGP Trustees Ltd.

- Trust deeds and letters of wishes;
- Beneficiary and succession arrangements;
- Trustee appointments and governance;
- Trust administration and distribution decisions;
- Coordination with underlying companies and advisers.

Led by Angelos G. Paphitis TEP, a STEP member since 2005, our trust advice combines specialist experience with professional and ethical standards.

Structure with purpose. Administer with care.

03

WILLS & PROBATE IN CYPRUS

CLEAR WISHES. CAREFUL ADMINISTRATION.

A carefully prepared will is an essential part of a wider succession plan. We help clients document their wishes and consider how their Cyprus assets fit with arrangements elsewhere. When an estate needs to be administered, we guide executors, administrators and beneficiaries through the process.

- Preparation and review of Cyprus wills;
- Coordination with wills and assets abroad;
- Probate and letters of administration;
- Estate administration and asset transfers;
- Support for executors and beneficiaries.

Through Angelos G. Paphitis TEP, AGPLAW follows the STEP Will Writing Code, reflecting our commitment to transparency, competence and client care.

Clarity for you. Guidance for those who follow.

04

FAMILY OFFICES IN CYPRUS

COORDINATING WEALTH. SUPPORTING THE FAMILY.

Families with interests across businesses, investments and jurisdictions need effective coordination. We assist with the establishment and ongoing legal and operational support of family offices in Cyprus, aligning the structure with the family's objectives and the work of its existing advisers.

- Family office structuring and establishment;
- Governance and decision-making frameworks;
- Holding companies and ownership arrangements;
- Legal, tax, accounting and administrative coordination;
- Support with premises, personnel and relocation.

A coordinated foundation for complex family affairs.

05

FAMILY BUSINESS & GOVERNANCE

CONTINUITY BEGINS WITH UNDERSTANDING.

Family ownership brings commercial priorities and personal relationships together. We help families establish clear arrangements for ownership, management and succession, so that responsibilities are understood and future changes can be addressed constructively.

- Family constitutions and governance frameworks;
- Shareholder agreements and reserved decisions;
- Ownership and management succession;
- Share transfers, exits and dispute mechanisms;
- Alignment with trusts, wills and holding structures.

Clear roles. Shared direction. Lasting continuity.

PRIVATE CLIENT TAX & RELOCATION

A NEW CHAPTER. A CONNECTED PLAN.

Relocation affects more than a place of residence. We bring together private client, tax, immigration and property advice to help individuals and families assess a move to Cyprus and understand its implications for their wider affairs.

- Personal tax residence and domicile advice;
- Review of eligibility for relevant tax regimes;
- Immigration and residence applications;
- Property acquisition and relocation support;
- Coordination with home-country tax and legal advisers.

Consider the whole picture before making the move.

PHILANTHROPY & FOUNDATIONS

GIVING WITH PURPOSE. PLANNING FOR IMPACT.

Philanthropic ambitions deserve a clear legal and governance framework. We help individuals and families consider how to organise their giving, establish suitable structures and support causes in a way that reflects their values and longer-term intentions.

- Choice of philanthropic structure and jurisdiction;
- Foundation establishment and governance;
- Charitable gifts, endowments and bequests;
- Grant and donation documentation;
- Coordination with family wealth and succession plans.

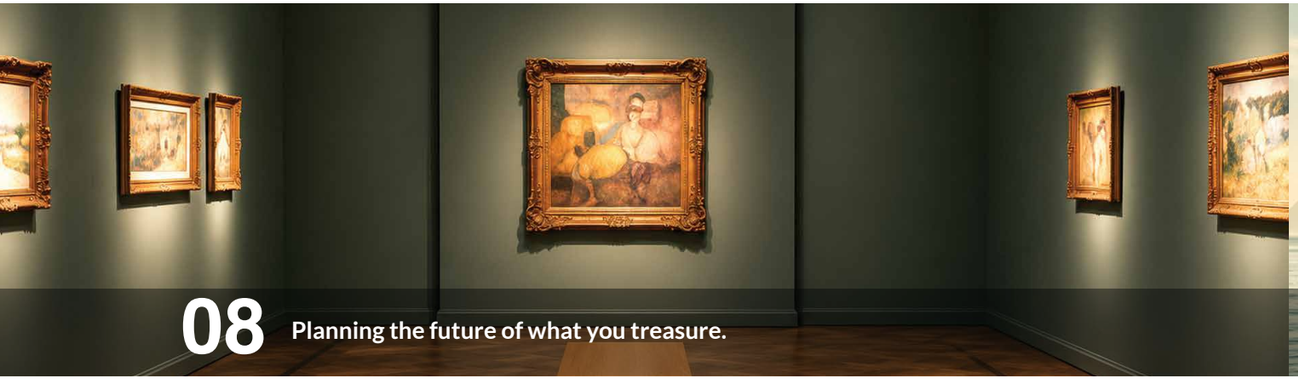

A lasting expression of your values.

ART, COLLECTIONS & CULTURAL ASSETS

PROTECTING OWNERSHIP. PRESERVING COLLECTIONS.

Art and cultural assets can carry personal, historical and financial significance. We advise collectors, families and owners on the legal arrangements surrounding their collections, from acquisition and ownership to exhibition, giving and succession.

- Acquisitions, sales and legal due diligence;
- Title, provenance and ownership documentation;
- Collection structures and family governance;
- Loans, exhibitions and cultural giving;
- Cross-border movement and compliance coordination;
- Succession, disputes and ownership rights.

08 Planning the future of what you treasure.

PRIVATE YACHTS & VALUABLE ASSETS

PERSONAL ASSETS. SPECIALIST ATTENTION.

Significant personal assets require careful legal planning throughout ownership. Working with our shipping, corporate and tax specialists, we advise on private yachts and other valuable assets, connecting transaction support with the family's wider ownership and succession arrangements.

- Acquisition and sale agreements;
- Ownership structures and registration coordination;
- Financing, security and contractual arrangements;
- Management and operational agreements;
- Tax and VAT coordination with relevant specialists;
- Succession planning and dispute support.

09 Enjoyment today. Clarity for the future.

TRUST, ESTATE & INHERITANCE DISPUTES

PROTECTING RIGHTS. MANAGING SENSITIVE DISPUTES.

Disagreements over trusts, estates and inheritance often involve both complex legal issues and important family relationships. Our private client and disputes teams work together to assess the position, identify practical options and protect clients' interests.

- Will validity and inheritance disputes;
- Trustee duties and beneficiary rights;
- Estate administration disagreements;
- Ownership and family asset disputes;
- Urgent protective relief where appropriate;
- Negotiation, settlement and court representation.

Clear advice when the stakes are personal.

OUR APPROACH

UNDERSTAND. PLAN. IMPLEMENT. REVIEW.

01 **Understand your priorities**

We start with your family, assets, commitments and intentions, including the arrangements already in place.

02 **Develop a coordinated plan**

We connect the relevant legal, tax and practical considerations and explain the available options clearly.

03 **Put the arrangements in place**

We prepare the documentation and coordinate implementation with the appropriate professionals and service providers.

04 **Review as life changes**

We help revisit arrangements as the family, its assets, business interests and circumstances evolve.

INTERNATIONAL COORDINATION

YOUR LIFE CROSSES BORDERS. SO DOES OUR THINKING.

Families may live in one country, own businesses in another and hold assets in several more. Effective planning requires those arrangements to be considered together.

From our Cyprus base, and with AGPLAW's London and UAE presence, we coordinate relevant expertise around each mandate. Where foreign-law or tax advice is required, we work with suitably qualified local advisers.
